Chart update and upgrade options

Upon registration all **Navionics** and **Garmin Navionics** chart cards have a subscription to a year of daily, downloadable updates.

Navionics options:

- For Large Navionics+ areas - use your old Navionics card (any type) to activate a Navionics+ Updates card (see **1** and **2**)
- For Regular Navionics+ areas - exchange to a new card, saving 50%, or upgrade to a Large area, as above.
- For cards from another brand - use it to activate a Navionics+ Updates card (see **1**)
- For all Platinum and Platinum+ cards - exchange to a new Platinum+ card, saving 50%

Garmin options:

- If your plotter has an built-in chart (i.e. no chart card), buy a Garmin preloaded update card - see **3** and **4** above
- Exchange your old card and save up to 50% on a new card with a subscription to updates

If unsure, call us for advice on your best update option.
